I understand Dan's Concern.
I propose that we split that.
Jim does habitat, I do toxics, and Phil does populations.

Dan,
Yes, it was a quick one.

Jim and Glenn,
Can you address Dan's concern?

Hey Phil,

Sorry to have missed today's call. I was working away and lost track of time. I'm assuming it was a quick one, because I called in at 11:30 and it was already over. Did I miss anything important?

In light of our recent phone conversation regarding my role in the assessment, I do have one concern regarding the agenda. I think that leading the discussion on fish responses to mining impacts falls well outside the scope of the fisheries characterization. Should someone else be doing this? I don't mind doing it, but I'm trying to stay focused on what's appropriate for my role.

Thanks for your thoughts.

Dan

All,

Our last conference call prior to the the Anchorage Meeting will be
Wednesday at 12:00 PM Pacific. Same phone number and code. We will
continue to work on the agenda for the Anchorage meeting. I have
attached the latest version. Talk with you tomorrow.

Jim
